

Years & Years

London based three-piece **Years & Years** have seen a spectacular rise in popularity over the past twelve months. Following a string of single releases on Kitsuné Records, backed with well-chosen tour dates and excellent visual accompaniments, the electronic-pop trio topped the prestigious BBC Sound Of 2015 list before topping the UK Top 40 with *King* in March 2015.

Momentum helped fund this upward trajectory, with the band being supported for a number of early live dates, as well as video and studio costs. Later signing to Polydor, **Years & Years'** debut album, *Communion*, is due for release on June 22nd.

“The ‘Real’ video and single was what got us noticed by labels and blogs and the fund allowed us to keep our momentum...we had no other way of supporting ourselves at that point.”
