

## All We Are

It's been a great couple of years for Liverpool based three-piece **All We Are**. Having received Momentum funding in October 2013 to support a run of UK shows, the band have fast secured a promising live reputation, buoyed by festival appearances at Field Day, Deer Shed, Green Man and End of the Road, as well as support slots with Warpaint and Jungle.

Since receiving Momentum funding, **All We Are** have signed to Domino imprint, Double Six who released their self-titled debut album (produced by Dan Carey) in February 2015. The record has cemented wider acclaim, winning the GIT Award (aka the 'Scouse Mercury Prize') in April 2015 alongside a host of positive reviews. The band will be touring the UK and Europe for the remainder of the year, including a headline appearance at London's Scala in October.

*"Since we received the funding we've started working with great management, and signed to a really great label. Things have gone quite quickly, and we've recorded and released our first record. What the Momentum Fund really helped us with was the touring which we see as integral."*
